REMOTE QUALITY DATA MANAGEMENT

ACCESS TO DATA INFORMATION BY INTRANET AND INTERNET

GLOBAL QUALITY TESTS MANAGEMENT IN REAL TIME

Internal (Intranet) and external (Internet) management system that allows to access to data and statistics of the tests and measures performed in the laboratory, connectivity between companies and/or customers

The advantages of WEB technology applied to your organization

- ❑ **ADVANCED solution for dynamics organizations**
- ❑ **SEQUENTIALS & SIMULTANEOUS test combinations**
- ❑ **INTEGRATION in the systems: LYNX PLus or LYNX Pro**
- ❑ **SINGLE-USER &/OR MULTIUSER combinable system**
- ❑ **DATABASE COMPATIBLE: INTERBASE - ORACLE - SQL Server...)**
- ❑ **Remote access to the information (by Intranet & Internet). Included 5 Licences Mercury Net (without Database)**

Web Access Module MERCURY NET T-5829

DESCRIPTION

MERCURY NET System can be adapted to any of the 2 versions of **LYNX Plus or LYNX Pro**, depending on the needs of every organization.

Mercury Net System module (access to 1 Factory)
With this System, the access to the generated information in the Quality Control Laboratory is global, the results and statistics can be visualized remotely from any PC by intranet or Internet.

ADVANTAGES

- **REMOTE ACCESS TO INFORMATION** by INTRANET and INTERNET
- **FAST** obtaining data
- **WITHOUT HUMAN ERRORS**, when results management
- **EASY** to manage
- **TRACEABILITY ISO 9000**
- **OPTIMIZING OF HUMAN RESOURCES**
- **SEQUENTIAL and SIMULTANEOUSLY Tests, depending version:**

  - **Code. T1134 - LYNX Plus -** SEQUENTIAL Tests mode
  - **Code. T1143 – LYNX Pro -** SIMULTANEOUS & SEQUENTIAN TEST mode

FEATURES

- **Operative Systems recommended: Workstation / Windows´2000 – XP , in the Intranet server: Windows 2000 Workstation or XP Professional** (< 5 remote connections) and **Windows 2000 / 2003 Server** (for more than 5 remote connections)
- **COMPATIBLE DATABASE:** INTERBASE – ORACLE – SQL Server …
- **MODULAR STRUCTURE**
- **PDF files GENERATOR**
- **OPEN AND CONFIGURABLE**
- **STATISTICS in Real Time**
- **MULTILINGUAL**
- **DIFFERENTS USER LEVELS ACCESS**
- **INCLUDED 5 Mercury Net LICENCES: remote access to the information (without Database)**

OPTIONAL:

- **Unlimited licences** to access to the information by INTRANET and INTERNET
- **TELE-MAINTENANCE by modem/fax**
- **OPERATIVE SYSTEMS – DATABASE – DATABASE LICENCES (for remote connections by INTERNET) …**
- **PCs – SERVIERS –LOCAL NETS – INTERNET ACCESSIBILITY – PERIPHERICS …**

* Windows 2000 – XP - VISTA are products developed by Microsoft Corporation
